

Labyrinth Enterprises

128 Slocum Avenue, St. Louis, MO 63119 • (800) 873-9873 • www.labyrinth-enterprises.com

St. James Episcopal Cathedral Chicago, Illinois

Medium

Acrylic resin surface system

Completion date

September, 1999

Technique

The pebble aggregate base was filled and leveled, then covered with an AllDeck® surface: fiberglass sheeting, impregnated with acrylic resin. The labyrinth pattern was drawn and painted with the same acrylic material in a contrasting color.
